## RELATED WORKS

### Folio:

### Personal Project

React Native mobile application built on Expo to allow users to track their cryptocurrency portfolio, view twitter events on each coin, and allow users to play fantasy coin. Used free Coinmarketcap.com API to receive latest prices, Crypto Coins News API to fetch latest news in the market, and Twilio API to allow users OTP authentication. <https://expo.io/@anlai2/CoinTracker>

### SoMa:

### Personal Project

React Native mobile application built on Expo to provide a Craigslist-esque platform with SafeTrek integration to make sure transactions for users are safe. Also includes Yelp API to help users find nearby safe meeting places (coffee shops, malls). <https://expo.io/@anlai2/SoMaApp>

### TBG Order System:

### Work Project

React web application to allow The Breakfast Guys workers to send orders/invoices, order items according to inventory, and print invoices all online. Implements Routific API for the drivers' routes to show deliveries and notes for each stop, order the routes in most efficient way, and train new drivers on their weekly route.
